Editorial and Graphic Composition
Press Graphic & Publishing Ltd.

The paper on which the *International Braz J Urol* is printed meets the requirements of ANSI/NISO Z39, 48-1992 (Permanence of Paper). Printed on acid-free paper.

The *International Braz J Urol* is partially supported by the Ministry of Science and Technology, National Council for Scientific and Technological Development.

The *International Braz J Urol*, ISSN: 1677-5538 (printed version) and ISSN:1677-6119 (electronic version) is the Official Journal of the Brazilian Society of Urology – SBU and of the Confederacion Americana de Urologia - CAU, has a circulation of 6,000 copies per issue and is published 6 times a year (bimonthly, starting in January - February).

The issue date is up to 2 weeks after the month of issue for the hard copy and up to 1 week after the month of issue for the electronic version. Copyright by Brazilian Society of Urology.

The *International Braz J Urol* is indexed by: PubMed/MEDLINE, Index Medicus - NLM, EMBASE/Excerpta Medica; SciELO, Lilacs/Latin America Index; Free Medical Journals; MD-Linx; Catálogo Latindex; etc.

DISCLAIMER

The authored articles and editorial comments, opinions, findings, conclusions, or recommendations in the *International Braz J Urol* are solely those of the individual authors and contributors, and do not necessarily reflect the views of the Journal and the Brazilian Society of Urology and the Thai Urological Association. Also, their publication in the *International Braz J Urol* does not imply any endorsement. The publication of advertisements in the *International Braz J Urol*, although expecting to conform to ethical standards, is not a warranty, endorsement or approval of the products or services advertised or of their effectiveness, quality, or safety. Medicine is a science that constantly and rapidly advances, therefore, independent verification of diagnosis and drug usage should be made. The Journal is not responsible for any injury to persons caused by usage of products, new ideas and dosage of drugs proposed in the manuscripts.
