DISCLAIMER

The authored articles and editorial comments, opinions, findings, conclusions, or recommendations in the *International Braz J Urol* are solely those of the individual authors and contributors, and do not necessarily reflect the views of the Journal and the Brazilian Society of Urology. Also, their publication in the *International Braz J Urol* does not imply any endorsement. The publication of advertisements in the *International Braz J Urol*, although expecting to conform to ethical standards, is not a warranty, endorsement or approval of the products or services advertised or of their effectiveness, quality, or safety. Medicine is a science that constantly and rapidly advances, therefore, independent verification of diagnosis and drug usage should be made. The Journal is not responsible for any injury to persons caused by usage of products, new ideas and dosage of drugs proposed in the manuscripts.
