

# International Braz J Urol

## Subject Index - Volume 29, 2003

### Adrenal

CT of primary hyperaldosteronism, 466  
hemorrhage shock, 428  
pheochromocytoma, 428  
rupture of pheochromocytoma, 428

### Benign prostatic hyperplasia

alpha-blocker vs. transurethral microwave, 252  
asymptomatic leiomyoma, 245  
benign neoplasm, 245  
complications vs. transurethral microwave, 252  
diagnosis on needle biopsy, 74  
digital rectal examination, 423  
drug therapy, 234  
efficacy of transurethral microwave, 252  
follow-up of BPH biopsy, 476  
histology of transurethral microwave, 252  
immune mechanisms in BCG therapy, 372  
intramural leiomyoma, 245  
mechanism of transurethral microwave, 252  
medical therapy, 234  
postoperative of transurethral microwave, 252  
PSA and digital rectal examination, 423  
risk population, 236  
sham vs. transurethral microwave, 257  
surgery, 234, 418  
symptom score, 418  
transurethral microwave, 251  
treatment, 252  
treatment costs, 234  
urodynamic evaluation in surgery, 418

### Bladder

anterior vaginal wall prolapse, 48  
augmentation in neurogenic disease, 55  
bladder instability in rabbits, 62  
bladder neoplasms, 84, 336  
bladder preservation in muscle-invasive carcinoma, 376  
botulin toxin A effect in rat, 176  
continence after orthotopic neobladder, 502  
cystectomy or radiotherapy in bladder cancer, 182  
cystocele, 48  
dimethyl sulfoxide and bladder wall, 276  
experimental model of bladder instability, 62  
gastrocystoplasty in areflexic bladder, 374  
grade IV cystocele, 48  
hemangioma, 149  
incontinent ileovesicostomy for neurogenic bladder, 185  
interstitial cystitis diagnosis, 477  
Klippel-Trenaunay-Weber syndrome, 149  
lastissimus dorsi transfer for bladder acontractility, 179  
Mitrofanoff conduit, 53

morbidity of cystectomy, 336, 502  
neurogenic, 53  
orthotopic ileocecal and ileal neobladder, 180  
orthotopic neobladder, 336, 502  
orthotopic neobladder and previous prostatic surgery, 502  
postoperative complications of cystectomy, 336, 502  
prolapse, 48  
prostate apex preservation and continence in urinary diversion 503  
prostheses and implants, 48  
radical cystectomy and continence, 502  
radical cystectomy and potency, 336  
reperfusion injury in rats, 471  
robot assisted cystectomy, 474  
second TUR in bladder tumors, 181  
urinary diversion, 83, 336, 502  
vesical hemangioma, 149  
voiding dysfunction, 53

### Children

age and toilet training, 283  
antibiotics and surgery for vesicoureteric reflux, 381  
bacteriuria in children, 450  
bladder control in mentally handicapped, 455  
catheterizable stomas, 59  
cloacal exstrophy, 186  
cryptorchidism, 345  
diagnosis of nonpalpable testis, 345  
DMSA in renal scanning, 535  
enuresis, 53  
hydronephrosis, 528  
imaging in febrile UTI, 90  
kidney transplantation, 481  
neonatal reflux, 188  
neural tube defects, 53  
neurogenic bladder and bowel, 53  
nurse care for urinary infection, 480  
renal scarring, 535  
therapeutics of cryptorchidism, 345  
ureterocele, 248  
urinary incontinence, 455  
urinary tract infection in children, 450  
urination disorders, 53  
vesicoureteric reflux, 535  
vesicoureteric reflux treatment and parental preference, 382  
voiding dysfunction in children, 450  
Wilms' tumor in adults, 40

### Endourology and Laparoscopy

avulsion of the ureter in ureteroscopy, 18  
blood loss in laparoscopic radical prostatectomy, 489  
catheterization period in laparoscopic prostatectomy, 489  
complications in liver donor nephrectomy, 14  
complications of ureteroscopy, 14

# International Braz J Urol

---

conservative treatment in upper tract tumors, 71  
costs of flexible ureteroscopes, 463  
CT guided access for PCNL, 361  
education in percutaneous surgery, 151  
electrohydraulic vs. electromagnetic ESWL, 364  
evolution of recipients in liver donor nephrectomy, 14  
hand-assisted laparoscopy, 169  
indications of extraperitoneal videoendoscopy, 441  
intrapelvic pressure during ureteropyeloscopy, 266  
laparoscopic adrenalectomy, 520  
laparoscopic live donor nephrectomy, 11  
laparoscopic nephrectomy, 363  
laparoscopic radical prostatectomy, 489  
laparoscopic urethrovesical anastomosis, 268  
laparoscopic versus open radical prostatectomy, 170  
laparoscopy in nonpalpable testis, 345  
laparoscopy in ovarian vein syndrome, 45  
learning and training percutaneous surgery, 151  
lithotripsy, 195  
model for percutaneous surgery training, 151  
nephrectomy in living donor, 11  
nerve sparing in laparoscopic prostatectomy, 489  
pain after PCNL and tube size, 460  
percutaneous surgery, 151, 195  
pig kidney for training, 151  
port site metastasis, 279  
port site recurrence in metastatic melanoma, 520  
renal pelvic stones – SWL or PCNL, 195  
results of laparoscopic prostatectomy, 489  
results of liver donor nephrectomy, 13  
shock wave lithotripsy, 195  
shock wave lithotripsy in children, 539  
solitary kidney and renal insufficiency, 201  
stone fragility in SWL, 362  
technical aspects of extraperitoneal videoendoscopy, 441  
training in percutaneous surgery, 151  
ureteral stenting after ureteroscopic lithotripsy, 265  
ureteroscopy, 18  
vesicourethral anastomosis in laparoscopic prostatectomy, 489  
videoendoscopy by extraperitoneal access, 441

## Erectile dysfunction and Ejaculation

adverse events of sildenafil  
cavernous arteries, 320  
cystectomy and erection preservation, 336  
oral treatment of erectile dysfunction, 320  
peak systolic flow in cavernous arteries, 320  
post-radical prostatectomy model of erectile dysfunction, 80  
sildenafil effect in cavernous arteries, 320

## Genitalia

piercing, 184  
prenatal androgens on rat's vaginal sinus, 472  
vaginal prolapse, 243  
vaginal prolapse and hydronephrosis, 243  
vulvovaginitis in prepubertal girls, 282

## Imaging

classification of angiomyolipomas, 208  
CT and excretory urography in microhematuria, 76  
CT angiography for evaluating living kidney donors, 365  
CT in angiomyolipomas, 208  
CT in bladder leiomyoma, 246  
CT in leiomyosarcoma of the renal vein, 43  
CT in ovarian vein syndrome, 46  
CT in prostatic abscess, 31  
CT in renal artery embolism, 148  
CT in ureteral calculi, 464  
CT in vesicourethral anastomosis rupture, 224  
CT in vesical hemangioma, 150  
diagnosis of angiomyolipomas, 208  
DMSA for renal scanning in children, 535  
DTPA in acute renal graft complications, 507  
for indication of prostate biopsy, 77  
hemorrhage in angiomyolipomas, 208  
high resolution CT in renal cell carcinoma, 272  
IVU and renal scar in children, 535  
MRI in diagnosis of ureterocele, 248  
MRI in penile fracture, 35  
prostatic abscess, 31  
retrograde urethrogram in vesicourethral rupture, 224  
transrectal ultrasound of the prostate, 31  
ultrasound guided drainage of prostatic abscess, 31  
vesicourethral anastomosis rupture, 224

**Impotence:** see Erectile dysfunction

## Incontinence

and cystocele, 48  
cystectomy and continence, 336  
female incontinence, 353, 540  
intrinsic sphincteric insufficiency, 540  
male incontinence, 524  
mixed incontinence and pubovaginal sling, 378, 540  
neurogenic bladder, 53  
prolapse, 48  
prostheses and implants, 353, 540  
pubovaginal sling, 353, 540  
reconstructive surgical procedures, 353  
sling, 524  
stress incontinence, 353, 540  
suprapubic sling adjustment, 85, 353  
tension free vaginal tape for, 87  
urethral hypermotility, 540  
urodynamic before pubovaginal sling, 380  
vaginal erosion of polypropylene slings, 280

## Infertility

cryopreservation technique, 133  
intracytoplasmic sperm injection (ICSI), 143

# International Braz J Urol

---

motility and vitality after thawing, 133  
oligoasthenozoospermic men, 133  
percutaneous epididymal sperm aspiration (PESA), 141  
PESA and cryopreservations, 144  
PESA in obstructive azoospermia, 141  
testicular sperm aspiration (TESA), 144

## Kidney

algorithm for treating renal trauma, 100  
bilateral embolism of renal arteries, 147  
bilateral hydronephrosis by vaginal prolapse, 243  
calculi and xantogranulomatous pyelonephritis, 241  
classification of renal injuries, 98  
CT and renal artery embolism, 148  
exploration of the injured kidney, 101  
hemostasis in partial nephrectomy, 368  
indications for surgical exploration in renal trauma, 98  
leiomyosarcoma of the renal vein, 43  
nephrobronchial fistula, 241  
reconstructive principles in renal trauma, 102  
renal artery embolism, 147  
renal trauma, 98  
renal vein and leiomyosarcoma, 43  
surgical exploration in renal trauma, 98  
thrombolytic therapy in renal artery embolism, 147  
treatment of grades I to IV renal injuries, 369  
urinary fistula, 241  
vascular injury in renal trauma, 101  
Wilms tumor in adults, 40  
xantogranulomatous pyelonephritis, 241

## Kidney calculi

hydronephrosis, 204  
lithotripsy, 195  
obesity and treatment, 201  
renal anatomy, and, 198  
shock wave lithotripsy, 195  
stone burden and treatment, 197  
stone composition and treatment, 197

**Kidney cancer:** see Renal neoplasms

**Kidney transplantation:** see Renal transplantation

## Lithiasis

and collecting system anatomy, 198  
calcium, 217  
calcium oxalate, 217  
cystinuria, 218

effect of dietary calcium, 69  
fracture hardness of calculi, 197  
hypercalciuria, 217  
hyperuricuria, 217  
hypocitraturia, 217  
in caliceal diverticula, 199  
kidney, 195  
laparoscopic management of UPJ obstruction, 462  
lithotripsy, 195  
low urinary volume, 218  
medical management of cystinuria, 70  
metabolic disease  
metabolic investigation, 217  
pediatric staghorn calculi, 168  
renal tubular acidosis, 218  
risk factors, 217  
shock wave lithotripsy, 195  
stone location and treatment, 195  
stone recurrence predictive score, 461  
urinary tract infection, 218  
vitamin C and calcium stone formers, 167

## Pelvis

autonomic nervous system, 277  
cystocele, 48  
lower urinary trauma in females, 467  
ovarian vein syndrome, 45  
prolapse, 48  
vaginal erosion of polypropylene slings, 280  
vaginal prolapse and hydronephrosis, 243  
vaginal wall prolapse, 48

## Penis

chronic penile strangulation, 327  
classification of priapism, 391  
compression devices, 327  
congenital deviation, 332  
dorsal vein rupture in penile fracture, 36  
etiology of priapism, 391  
fracture, 35  
glandectomy for penile carcinoma, 437  
lymphedema, 327  
magnetic resonance imaging in penile fracture, 35  
nerves communicating branches, 278  
pathophysiology of priapism, 391  
penile carcinoma, 437  
penile neoplasms, 437  
Peyronie's disease fibroblasts, 274  
Pharmacologic therapy for priapism, 391  
preservation of corpora cavernosa in carcinoma, 437  
priapism, 391  
surgery for congenital deviation, 332  
therapy of penile fracture, 35  
types of lesions in penile fracture, 37

# International Braz J Urol

---

## Prostate

color Doppler endorectal sonography, 366  
diagnosis and treatment of prostatic abscess, 30  
high-grade PIN and ASAP,  
prostatic abscess, 30  
symptoms and signs of prostatic abscess, 32  
transrectal ultrasound, 30

## Prostate cancer

ambulatorial orchiectomy, 127  
and non-symptomatic men, 24  
androgen ablation before surgery, 475  
antimicrobial therapy in biopsy, 313  
atypical glands in core biopsies, 270  
biopsy, 308, 313  
bisphosphonates, 228  
blood loss in laparoscopic radical prostatectomy, 489  
bone metastasis, 121, 228  
brachytherapy for prostate carcinoma, 377  
carcinoma extent vs. perineural invasion, 370  
case selection of radical perineal prostatectomy, 291  
castration, 127  
catheterization period in laparoscopic prostatectomy, 489  
ciprofloxacin in prostate biopsy, 313  
clodronate for bone metastases, 228  
cloramphenicol in prostate biopsy, 313  
complications of prostate biopsy, 315  
complications of radical perineal prostatectomy, 291  
costs of orchiectomy, 127  
cutting point of PSA, 121  
diagnosis, 24, 300, 306  
digital rectal examination, 24, 300, 306  
economical impact of orchiectomy, 127  
epidemiology, 300, 306  
extension, 113  
focus of 0.5 mm or less on needle biopsy, 469  
gene therapy, 406  
genomics, 401  
Gleason score, 113, 308, 497  
Gleason score for each core biopsy, 470  
histological grade and tumor extent, 113  
histologic grading, 113, 308  
hormone refractory, 228  
in Blacks, 304, 309  
in Mulattos, 304, 309  
in Whites, 304, 309  
laparoscopic radical prostatectomy, 489  
mean age, 306  
method for tumor extent evaluation, 113, 497  
micro-array, 401  
molecular aspects, 401  
molecular markers, 401  
morbidity of surgery, 121  
needle biopsy, 24, 308, 313  
neoplasm metastasis, 228

neoplasms staging, 121, 497  
nerve sparing in laparoscopic prostatectomy, 489  
norfloxacin in prostate biopsy, 313  
normal digital rectal examination, 24  
orchiectomy for advanced disease, 128  
osteoblastic metastases, 230  
outcome of radical perineal prostatectomy, 291  
pain in, 230  
palliative treatment, 228  
point-count method for tumor evaluation, 115  
prediction of bone metastasis and PSA, 121  
prevalence and race, 300, 306  
prognosis, 497  
prostate basal cells, 269  
prostate biopsy: indications and technique, 77  
prostate cancer oncogenesis, 403  
prostatic intraepithelial neoplasia (PIN), 24  
prostatic-specific antigen (PSA), 24, 121, 300, 307  
PSA levels and bone metastasis, 121  
quantification of tumor extension in biopsies, 497  
racial differences in androgen receptor, 373  
racial influence, 300, 306  
radical perineal prostatectomy, 291  
radical prostatectomy model of impotence, 80  
results of laparoscopic prostatectomy, 489  
retropubic radical prostatectomy, 80, 113, 221  
robot assisted nerve graft, 473  
rupture of vesicourethral anastomosis after surgery, 221  
scintigraphic metastases and PSA, 121  
screening for, 24, 300, 306  
serum markers, 405  
sextant biopsy, 24  
skeleton metastasis prediction, 121  
size of tumor in pathological specimen, 113, 497  
substratification of stage T1c, 75  
surgical castration for advanced disease, 127  
surgical complications, 121  
susceptibility genes for prostate cancer, 404  
tissue markers, 406  
transrectal ultrasound, 24  
tumor extent and extraprostatic extension, 113  
tumor extent and preoperative PSA, 113  
tumor extent and surgical margins, 113  
twelve core biopsy, 24  
ultrasound guided biopsy, 24, 497  
vesicourethral anastomosis in laparoscopic prostatectomy, 489

## Renal neoplasms

angiomyolipomas  
cell types in T1 disease, 108  
classification of angiomyolipomas, 209  
complex cystic renal masses, 175  
dendritic cell vaccines in, 517  
diagnosis imaging of angiomyolipomas, 208  
disease recurrence in T1 stage, 108  
exeresis of multiple metastases, 238  
hemorrhage in angiomyolipomas, 208

# International Braz J Urol

---

hepatic metastasis, 518  
high-grade in T1 stage, 107  
high resolution CT in renal cell carcinoma, 272  
leiomyosarcoma of the renal vein, 43  
lung metastases, 239  
lymph nodes involvement in T1 stage, 107  
metachronous metastases, 238  
metastasis in RCC, 517  
microscopic vascular invasion, in T1 stage, 107  
pancreatic metastasis, 239  
prognostic factors according to volume, 107  
prognostic features and subtypes of RCC, 370  
pT1 substaging in RCC, 173  
radical nephrectomy and metastases, 238  
radio frequency interstitial ablation in, 73, 273  
radiological classification of angiomyolipomas, 208  
sarcomatous degeneration in stage T1, 107  
subdivision of T1 stage, 106  
survival according to volume, 106  
survival in T1 disease, 108  
TNM classification, 106  
tumor characteristics in T1 stage, 107  
Wilms' tumor in adults, 40

## Renal transplantation

complications in liver donor nephrectomy, 14  
DTPA in acute renal graft complications, 507  
evolution of recipients in liver donor nephrectomy, 14  
graft rejection, 507  
hand-assisted laparoscopic nephrectomy in, 11  
laparoscopic live donor nephrectomy, 11

## Retroperitoneum

leiomyosarcoma of the renal vein, 43  
ovarian vein syndrome, 45

## Seminal vesicle

cystadenoma, 434  
neoplasms, 434

## Surgical technique

anterior vaginal wall sling, 48, 540  
bulbar urethroplasty, 155  
cadaveric fascia lata in grade IV cystocele, 48  
complications of urethroplasty, 155  
cystectomy with preservation of sexual function, 336  
dorsal approach in bulbar urethroplasty, 155  
glandectomy for penile carcinoma, 437  
in penile fracture, 35  
male perineal autologous sling, 524

model for training percutaneous surgery, 151  
neurogenic bladder and bowel, 53  
orchiopexy by laparoscopy, 348  
ovarian vein syndrome, 45  
plication for congenital penile deviation, 332  
radical perineal prostatectomy, 291  
SAFYRE™ readjustable sling, 353  
selective retroperitoneal lymphadenectomy, 412  
urethroplasty, 155  
urinary continence and cystectomy, 336

## Testis and Scrotum

advanced prostate cancer and orchiectomy, 127  
cryptorchidism, 345  
diagnosis of nonpalpable testis, 345  
economical impact of orchiectomy for prostate cancer, 127  
germ cell tumor, 412  
laparoscopy in cryptorchidism, 345  
lung carcinoma with germinative cell features, 431  
neoplasms, 330  
neoplasm metastasis, 412  
nonpalpable testis, 345  
orchiectomy for prostate cancer, 127  
sclerotherapy for hydrocele, 267  
selective retroperitoneal lymphadenectomy, 412  
seminoma, 330, 412  
synchronous bilateral seminoma, 330  
testicular chondrosarcoma, 330, 522  
testicular neoplasms, 330, 522  
unilateral retroperitoneal lymphadenectomy, 412

## Ureter

complications of ureteroscopy, 18  
retrograde ureteroscopy, 18  
ureteral avulsion, 18  
ureteral injury, 468  
ureteral stricture, 18  
ureterocele, 248  
ureteroscopy, 18  
vesicoureteric reflux, 535

## Ureteropelvic junction obstruction

antegrade endopyelotomy, 7  
Culp-De Weerd Spiral Flap, 4  
dismembered pyeloplasty, 4  
endoscopic management, 7  
Foley Y-V plasty, 5  
laparoscopic management, 463  
laparoscopic pyeloplasty, 9  
prenatally diagnosis of UPJ obstruction in children, 528  
pyeloplasty in children, 528  
retrograde endopyelotomy, 9

# International Braz J Urol

---

Scardino-Prince vertical flap, 6  
surgical treatment, 3  
ultrasound in children UPJ obstruction, 528  
UPJ obstruction in children, 528  
ureterocalycostomy, 6

## Urethra

anterior vaginal wall prolapse, 48  
autonomic nervous system, 162  
bethanecol and autonomic system modulation, 162  
bulbar urethroplasty, 155  
Chagas' disease and autonomic system, 162  
complications of urethroplasty, 158  
dorsal approach for bulbar urethroplasty, 155  
experimental urethral obstruction, 62  
experimental urethral stent, 79  
graft in bulbar urethroplasty, 156  
in penile fracture, 35  
modulation of alpha-sympathetic, 162  
MRI imaging in female SUI, 174  
NO synthase in sheep urethral sphincter, 178  
parasympathetic modulation and bethanecol, 162  
parasympathetic nervous system, 162  
sympathetic nervous system, 162  
tubularized incised tape repair, 89

urethral metastasis, 431  
urethral repair with an off-the-shelf collagen matrix, 82  
urethroplasty for bulbar strictures, 155  
urethroplasty with porcine acellular matrix, 81

## Voiding dysfunction: see also incontinence

and neurogenic bowel, 60  
artificial urinary sphincter, 56  
bladder augmentation, 55  
bladder instability in rabbits, 62  
experimental model of bladder instability, 62  
grade IV cystocele, 48  
intrinsic sphincteric insufficiency, 540  
male perineal sling, 524  
neurogenic bladder, 53  
prostheses and implants, 353, 540  
reconstructive surgical procedures, 353  
sling for incontinence, 353, 540  
sling for male incontinence, 524  
stress urinary incontinence and, 540  
urinary incontinence, 353  
urinary sphincter in, 524  
urination disorders in children, 53  
urodynamics for overactive bladder, 478
