

# International Braz J Urol

## Subject Index - Volume 30, 2004

### Adrenal

adenomatoid tumor, 313  
adrenal pseudocyst, 35  
CT guided radiofrequency ablation in tumors, 250  
massive retroperitoneal hemorrhage, 35  
percutaneous biopsy of masses, 160  
rupture of pseudocyst, 35

### Benign prostatic hyperplasia

detrusor instability, 136  
international prostate symptom score, 135  
irritative and obstructive symptoms, 137  
lower urinary tract symptoms, 135  
prostatism, 135  
quality of life, 135  
urodynamics, 135

### Bladder

alleles genotyping in bladder cancer, 280  
arylamine N-Acetyltransferase and bladder cancer, 279  
bladder cancer and androgen receptor, 526  
bladder cancer in north India, 279  
bladder instillations of resinferatoxin, 53  
bladder neoplasms, 37, 83, 185, 192, 279, 296, 400, 406  
bladder outlet obstruction, 135  
bladder replacement with de-epithelialized ileum, 237  
chemotherapy for bladder lymphoma, 38  
cystectomy following radical prostatectomy, 125  
cystoprostatectomies, incidence of prostatic and urothelial ca, 169  
cystoprostatectomy for bladder cancer, coexistence of prostate ca, 296  
device for vesicourethral anastomosis, 323  
diagram of hematuria investigation, 189  
extended lymphadenectomy in bladder cancer, 262  
fast and slow acetylators and bladder cancer, 281  
gabapentin for overactive bladder and nocturia, 275  
ileal bladder in dogs, 237  
infiltrating bladder cancer in elderly, 83  
interstitial cystitis and nitric oxide, 81  
interstitial cystitis and nitric oxide, 81  
interstitial pneumonitis secondary to intravesical BCG, 400  
IVU and bladder carcinoma, 185  
laparoscopic partial cystectomy in cancer, 192  
lymphadenectomy with cystectomy, 440  
metastasectomy in urothelial cancer, 171  
muscle invasion, diagnosis, 99  
NAT2 polymorphism in bladder cancer, 279  
neobladder in dogs, experimental, 237  
neoplasm invasiveness, 296  
non-Hodgkin lymphoma, 499  
orthotopic neobladder, 125  
orthotopic neobladder and previous prostatic surgery, 125  
partial cystectomy, laparoscopic, 192

polymorphism genetics and bladder cancer, 279  
postoperative instillations of chemotherapy for stage Ta T1, 353  
primary lymphoma, 37  
primary T1G3 bladder cancer, 530  
resinferatoxin for bladder instability, 53  
risk of bladder cancer, 279  
tobacco and bladder cancer, 279  
toxins instillations, 53  
transabdominal ultrasound and bladder tumors, 185  
simultaneous TUR of bladder tumor and BPH, 84  
solitary fibrous tumor in bladder wall, 406  
vesical and prostatic neoplasia, 296  
vesical metastasis of gastric carcinoma, 403  
vesical silicone modeler, 240  
voiding dysfunction following sling surgery, 302

### Children

adrenergic alpha-antagonists, 128  
adryamicin-induced fetal hydronephrosis, experimental, 508  
ambitions of adolescents born with exstrophy, 446  
amniotic fluid, rats, 508  
antenatal disorders, 40  
complete primary repair of bladder exstrophy, 439  
congenital anomalies, 40, 49  
cryptorchidism, 49  
cystourethrogram, 504  
desmopressin for nocturnal bedwetting, 266  
diagnosis of intrauterine urinary obstruction, 42  
DMSA abnormality and vesicoureteral reflux, 357  
enuresis, 128  
fetal hydronephrosis, experimental, 508  
fetal surgery, 40  
fetoscopy, 40  
Fowler-Stephens orchiopexy, 175  
intrauterine diagnosis and surgery, 40  
imaging in neurogenic bladder, 504  
kidney neoplasms in children, 227  
myelomeningocele, 40  
nephrectomy in children, 227  
non-neurogenic neurogenic bladder dysfunction, 128  
neurogenic bladder, 504  
paternity after adolescent varicocele repair, 533  
prenatal intervention for urinary obstruction, 40  
prenatally diagnosed renal tumors, 534  
prune-belly syndrome, 175  
renal cell carcinoma in childhood, 227  
techniques of intrauterine intervention, 43  
urinary tract infection in children, 88  
urinary obstruction, intrauterine, 40  
urodynamic in neurogenic bladder, 132  
vaginal construction with sigmoid colon, 358o  
vesicoureteral reflux, 87, 504  
voiding cystourethrogram, 130, 161, 504  
voiding dysfunction in children, 128, 504  
young males with varicocele, 448

---

## Endourology and Laparoscopy

abdominal laparoscopy, complications, 70  
fluid absorption during ureterorenoscopy, 516  
laparoscopic live donor nephrectomy, 69  
laparoscopic retroperitoneal lymph node dissection, 249  
laparoscopic transuterine fetal vesicostomy, 518  
laparoscopic vs. open partial nephrectomy, 429  
nephrolithotomy in patients with neurogenic bladder, 247  
nephrostomy: large, small or tubeless after percutaneous surgery, 426  
precaval right renal arteries, 72  
shock wave lithotripsy in Peyronie's disease, 199  
transperitoneal vs. extraperitoneal laparoscopic prostatectomy, 519  
tumor seeding in urological laparoscopy, 261  
ureteroscopy, dual active deflection in ureteropyeloscopy, 428

## Erectile dysfunction and Ejaculation

corpus cavernosum relaxation in trained rats, 258  
following radical prostatectomy, 351  
intracavernous injection of VEGF in aged rats, 437

## Imaging

bone scanning in staging prostate cancer, 341  
coronal imaging to assess urinary tract stone size, 432  
cortical renal thickness in obstruction, 105  
cross-sectional area of renal parenchyma, 103  
CT in juxtaglomerular cell tumor  
CT in bladder carcinoma, 125  
CT in pelvic Actinomycosis, 369  
CT in residual mass post-chemotherapy for testis carcinoma, 384  
CT in staging prostate cancer, 341  
CT in renal cell carcinoma, 520  
CT in renal cholesteatoma, 494  
CT in renal papillary carcinoma, 520  
differential creatinine clearance, 102  
endoluminal ultrasound in urology, 96  
IVU and bladder carcinoma, 185  
IVU and neurogenic bladder in children, 129  
neurogenic bladder in children, 504  
non-contrast CT for creatinine clearance, 102  
MRI and MR spectroscopic imaging after transrectal biopsy, 521  
MRI in primary prostatic lymphoma, 411  
MRI in renal cell carcinoma, 71  
patient radiation dose at CT and conventional urography, 343  
percutaneous biopsy of adrenal masses, 160  
prostatic ultrasonography, 114  
renal cortical thickness by ultrasound, 103  
transabdominal ultrasound and bladder tumors, 185  
ureteral cancer, 96  
ultrasound and neurogenic bladder in children, 129  
ultrasound in Peyronie's disease, 201  
unilateral chronically obstructed kidney, 102  
voiding cystourethrogram in children, 130, 161

**Impotence:** see Erectile dysfunction

## Incontinence

cesarean section and SUI, 174  
laparoscopic Burch surgery, 230  
longitudinal urethral sling for male incontinence, 307  
male incontinence, 307  
mechanical properties of urogynecologic implant materials, 531  
Portuguese version of King's Health Questionnaire, 479  
pre and retropubic sling fixation for male, 307  
prostheses and implants, 123, 302, 307  
pubovaginal sling, 123, 302  
quality of life questionnaire, 479  
reconstructive surgical procedures, 302  
sling, 123, 302  
stress urinary incontinence, 230, 302, 479  
tension free vaginal tape, 123, 532  
urinary sphincter, 307  
vaginal erosion of sling, 123  
voiding dysfunction following sling surgery, 302

## Infertility

cryopreservation technique, 487  
refreezing human spermatozoa, 487  
intracytoplasmic sperm injection (ICSI), 487  
liquid nitrogenic vapor, 487

## Kidney

abnormalities, 319, 321  
cake kidney drained by single ureter, 321  
chemotherapy in kidney neoplasms, 210  
cholesteatoma of upper tract, 494  
cortical thickness by ultrasound, 103  
creatinine clearance in chronically obstructed, 102  
cyst, cholesteatoma, 494  
differential renal function by CT, 102  
dog kidney, 148  
hematuria, renal origin, 216  
high-energy shock waves, 142  
horseshoe kidney and tumor, 319  
hydronephrosis, 321  
juxtaglomerular apparatus, 119  
kidney neoplasms, 210, 214, 319  
laparoscopic donor nephrectomy, 398, 416  
partial nephrectomy, 216, 319  
pyelic fusion and crossed single ureter, 319  
rats, 142  
renal cryoablation, 257  
renal hemangioma, 216  
renal parenchyma volume, 104  
renal sarcoma, 210  
shock waves effect on n-acetyl-beta-glucosaminidase, 142  
unremitting hematuria after donor nephrectomy, 398

**Kidney cancer:** see Renal neoplasms

# International Braz J Urol

---

**Kidney transplantation:** see Renal transplantation

## **Lithiasis**

anticonvulsants and, 29  
brushite stones, 156  
calcium oxalate morphology, 205  
crystallization, 205  
diet, 29  
effect of urinary calcium and oxalate on saturation, 515  
high-energy shock waves effects, 142, 148  
kidney, 32, 68  
laparoscopic guided percutaneous nephrolithotripsy, 32  
lithotripsy, experimental, 148  
metabolism, 29  
n-acetyl-beta-glucosaminidase and shock waves, 148  
nephrectomy, 316  
nephrocutaneous fistula, 316  
nephrolithiasis in obese patients, 338  
nifedipine versus tamsulosin for lower ureteral stones, 337, 339  
pelvic kidney, 32  
pH and body weight in lithiasis, 246  
porcine model of calcium oxalate stone, 80  
shock wave lithotripsy effects in liver, 142  
shock wave lithotripsy effects in spleen, 142  
shock wave lithotripsy in canine kidney, 148  
stone comminution in SWL, 427  
supersaturation, 205  
topiramate associated, 29  
transperitoneal nephrolithotripsy, 32  
ureter, 67  
urine supersaturation and calcium oxalate morphology, 205

## **Pathology**

bladder papilloma, 76  
combined percentage of Gleason 4 and 5, 165  
fat invasion in prostate needle biopsy, 346  
high-grade PIN, 77  
insignificant clinical T1c prostate tumors, 525  
minute adenocarcinomas of prostate, 524  
pelvic Actinomycosis, 369  
prostate carcinoma, T1c versus T2, 255  
pT2b prostate cancer, 256  
renal cholesteatoma, 495  
sarcomatoid renal cell carcinoma, 347  
vascular invasion in prostate cancer, 164  
vesical metastasis of gastric carcinoma, 404

## **Pelvis**

infection, 367  
pelvic Actinomycosis, 367  
tumor, 367

## **Penis**

alpha-agonist for priapism, 121  
gene profile, Peyronie vs. Dupuytren's disease, 349  
metamirol self-injection for priapism, 121  
non-invasive treatment of Peyronie's disease, 199  
Peyronie's disease, 199  
priapism, 121  
SWL for treatment of Peyronie's disease, 199  
sick cell and priapism, 121  
vitamin E for Peyronie's disease, 199

## **Prostate**

and overactive bladder, 275  
digital rectal examination, 466  
interobserver variation of prostatic volume, 466  
laparoscopic extraperitoneal prostatectomy, 221  
peri-prostatic anesthesia for biopsy, 114  
primary lymphoma of the prostate, 410  
prostatic volume estimation, 466  
ultrasound guided biopsy

## **Prostate cancer**

advanced disease, 461  
androgen blockade, 3  
anesthesia in biopsy, local, 380  
antiandrogens, 3  
biochemical failure after external radiotherapy, 289, 443  
biopsy, 380, 436  
bladder and prostatic neoplasia, 296  
bladder neck invasion and PSA recurrence, 434  
castration plus antiandrogen, 3  
clinical stage and PSA velocity, 14  
complete androgen blockage, 5  
DHEA, 3  
diagnosis, 109  
digital rectal examination, 109  
epidemiology, 3  
expectant management after biochemical failure, 289  
external radiotherapy, 289  
follow-up of biochemical failure without immediate treatment, 289  
flutamide, 3  
free-to-total PSA ratio, 109  
Gleason score, 15, 472  
Gleason score and PSA velocity, 15  
hormonal treatment for localized, 3, 455  
hormone refractory, 3, 455  
hormones, 289, 455  
initial PSA and subsequent cancer detection, 442  
intraoperative cell salvage during radical prostatectomy, 377  
laparoscopic radical prostatectomy, 221  
locally advanced disease, 455  
localized prostate cancer, 12  
LH-RH receptor, 3, 455  
metastatic disease, 8, 455

# International Braz J Urol

---

needle biopsy, 109, 114, 380, 436  
neoplasm metastasis, 455  
neoplasms staging, 12  
normal digital rectal examination, 109  
patient age and PSA velocity, 14  
percentage of fragments affected in biopsies, 472  
periprostatic anesthesia in biopsy, 114  
pathology, 12  
post-brachytherapy RTUP in localized cancer, 441  
prognosis, 3  
prostatic cell, 6  
prostatic neoplasms, 296, 410, 455, 472  
prostatic-specific antigen (PSA), 12, 109, 289, 472  
PSA increase following radiotherapy, 289  
PSA velocity, normal examination, 109  
PSA velocity, predictive value, 12  
quality of life considerations, 455  
radical prostatectomy in Jehovah's witnesses, 377  
radical retropubic prostatectomy, 12  
risk factors of seminal vesicle involvement, 472  
screening for, 3  
testosterone, 3  
three methods of anesthesia for transrectal biopsy, 430  
transperineal biopsy, 6 versus 12 cores, 172  
transrectal biopsy and lidocaine gel anesthesia, 380  
tumor volume and PSA velocity, 14  
ultrasound guided biopsy, 114, 380

## Renal neoplasms

clear cell carcinoma in horseshoe kidney, 319  
dendritic cell immunotherapy for urological cancers, 527  
justaglomerular cell tumor, 119  
pre-transplantation evaluation and, 214  
renal sarcoma, 210  
renal liposarcoma, 214  
sarcomatoid renal cell carcinoma, 347

## Renal transplantation

complications, 18, 22  
evolution of creatinine in recipients of laparoscopic donor nephrectomy, 26  
incidence of lymphocele, 18  
laparoscopic live donor nephrectomy, 22, 398, 416  
predisposing factors for lymphocele, 18  
prevalence of lymphocele, 18  
surgical technique for laparoscopic nephrectomy, 23

## Surgical technique

Acucise endopyelotomy, 59  
disposable instrument for vesicourethral anastomosis, 323  
laparoscopic Burch surgery, 221  
laparoscopic extraperitoneal prostatectomy, 221  
laparoscopic partial cystectomy in cancer, 192  
longitudinal urethral sling for male incontinence, 307

maximizing right renal vein length in donor nephrectomy, 416  
minimally invasive procedures, 59  
pre and retropubic sling fixation for male incontinence, 307  
vesicourethral anastomosis, 323

## Testis, Adnexa and Scrotum

anatomy of epididymis, 420  
cryptorchidism, 49, 420  
effect of peppermint tea on plasma testosterone and other hormones, 350  
epididymis, 49, 420  
germ cell tumor, 384, 389  
laparoscopic retroperitoneal lymphadenectomy, 389  
neoplasms, 384, 389  
neoplasm metastasis, 384, 389  
non-seminomatous testicular cancer, 384, 389  
post-chemotherapy residual mass, 384  
pseudotumor of the testis, 502  
retroperitoneal lymph node dissection post-chemo, 384  
schistosomal epididymitis, 413  
testicular anatomy, 420  
testis and cryptorchidism, 49  
testicular appendages, 49, 420  
testicular schistosomiasis, 502  
testicular neoplasms, 384, 389  
testicular torsion, 420

## Tissue engineering and reconstructive urology

bladder replacement with de-epithelialized ileum, 237  
fibrin glue for suture-less correction of chordee, 438  
neuroanatomy of the male urethra, 259  
orthotopic bladder substitution in women, 529  
pregnancy and urinary tract reconstruction, 176  
sexual behavior after hypospadias repair, 168  
small intestinal submucosa as allograft, 327  
TVT and fascia lata in rat model, 173  
ureteral allograft in pigs with SIS, 327  
urinary diversion, 125  
urinary tract biomaterials, 260  
urothelial cells culture, 82  
vaginal and penile reconstruction, 528

## Trauma

blunt renal trauma, 162  
bulbous urethral disruption, 252  
high-grade renal injuries in children, 522  
male external genitalia, 75  
pediatric renal injuries, 434, 523  
renal artery dissection, 74  
renal injuries, consensus statement, 433  
renal injury and operative management, 254  
renal injury in children, 265  
traumatic rupture of urinary bladder, 344  
straddle injuries to bulbar urethra, 345  
suprapubic catheter in acetabular fracture, 163

# International Braz J Urol

---

## Ureter

arterioureteral fistulas, 251  
complications of ureteral stump, 398  
endoluminal ultrasound for tumors, 99  
evaluation of ureteral strictures, 99  
extrinsic obstruction with indwelling stent, 340  
forgotten ureteral stent, 159  
nifedipine versus tamsulosin for lower ureteral stones, 337  
ureteral access sheath, 157, 248  
ureteral allograft with SIS in swine  
ureteral cancer, 96  
ureteral obstruction, 59, 102  
ureteral healing after endopyelotomy, 78  
ureteral endometriosis, 496  
ureteral stricture, 59

neuroanatomy of the lower urinary tract, 352  
neuromodulation, 275  
nocturia, 275  
overactive bladder: percutaneous tibial nerve stimulation, 444  
post-voiding residual urine, 302  
pre and retropubic sling fixation for male incontinence, 307  
resiniferatoxin for detrusor instability, 53  
sling for male incontinence, 307  
sling surgery and bladder outlet obstruction, 445  
SUI in bladder outlet obstruction, 263  
toxins, bladder instillations, 53  
urinary obstruction by prostatic lymphoma, 410  
urination disorders, 275  
urodynamics in detrusor instability, 53

## Ureteropelvic junction obstruction

Acucise endopyelotomy, 59  
durability of endourological intervention, 158  
endoluminal ultrasound, 99  
porcine model, 59  
preoperative location of crossing vessels, 99  
retrograde endopyelotomy, 59  
surgical treatment, 59

## Urethra

anterior and posterior foreign bodies, 219  
collagen injections, ultrasound guidance, 99  
chronic urethral or pelvic pain in females, 354  
device for vesicourethral anastomosis, 323  
distal urethral polypropylene sling, 355  
endoscopy, 219  
foreign body, 219  
longitudinal urethral sling for male incontinence, 307  
NO synthase in urethral stricture, 166  
pre and retropubic sling fixation for male incontinence, 307  
urethral dysfunction in diabetic rats, 167  
urethral diverticula, diagnosis, 99  
urethral leiomyoma, 496  
urethral hypermobility, 230  
voiding dysfunction following sling surgery, 302

## Voiding dysfunction, see also incontinence

anticholinergic refractory, 53  
anticholinergic refractory and gabapentin, 275  
bladder instillations, 53  
detrusor instability, 53, 136  
diet and overactive bladder, 264  
following aponeurotic sling surgery, 302  
gabapentin for overactive bladder and nocturia, 275  
longitudinal urethral sling for male incontinence, 307  
male sling, 307  
mixed incontinence and normal cystometrogram, 85
